10-3

Presentation Project Management

ORACLE
Academy

Objectives

- This lesson covers the following objectives:
  - Track responsibility and progress on a project by using a project-management document
  - Show evidence of progress on the final presentation project by filling in the final project tracking grid

Purpose

- Knowing where you are going and where you are along the way will ensure that you arrive at your destination

- Tracking a project's progress is a lot like flying an airplane across the ocean

- The pilots constantly monitor their speed and direction

- Without tracking their speed and direction, they could end up taking their passengers to the wrong place!

4

Purpose

- Tracking is essential to ensure that nothing has been omitted and what is being done satisfies the project's final objectives

- Assigning responsibility to different team members clarifies and divides the work efficiently

DDS10L3
Presentation Project Management

Project Management

- A well-managed project has a better chance of meeting its goals and deadlines than a poorly organized one

- A project-management document with tasks, responsibilities, and timelines can be a helpful tool if it is used by every member of the team

Summary

- In this lesson, you should have learned how to:
  - Track responsibility and progress on a project by using a project-management document
  - Show evidence of progress on the final presentation project by filling in the final project tracking grid
